Statement

Company Holik international s.r.o., Za Dvorem 612, Zlín 762 14, Czech Republic, of manufacturer of firefighting equipment and rescue equipment, do hereby state the following points:

The firefighting boots Hölik (with the current certification) and the distributed components are approved according to EN ISO 20345 and EN ISO 15090 and meet the requirements of DGUV 112-191.

For orthopedic components it is necessary to keep the range of modifications, which are recommended by the relevant lab or manufacturer of the appropriate footwear (such as antistatic properties, height of the toe cap, breathability of the insole etc.).

The boots are compatible with Schuh+Innersystem according to DGUV 112-191 also. Company Holik is a supplier of the Schöner orthopaedic components.

A list of the articles covered by this confirmation is available on the Holik International website.
